Question:
What is your favorite movie?

What do they have in common?

GREAT STORIES!!

We will learn the story framework made famous by Donald Miller

BUILDING A STORY BRAND
Clarify Your Message So Customers Will Listen

First, why stories?

Why stories?

- Noise vs. Music - Clarity is the key
- Brains - Survive and Thrive (Conserve Calories)
- People spend over $500 Billion going to the movies each year - **Starving for stories**
- Best Super Bowl Commercials - Those with a story (see Bud’s Puppy and Horse Commercial)

What do stories have to do with Marketing?

PIXAR

Before Pixar

After Pixar

Welcome, IBM.

Seriously.

Welcome to the most exciting and important marketplace since the computer revolution began 35 years ago.

And congratulations on your first personal computer.

Putting real computer power in the hands of the individual is already improving the way people work, think, learn, communicate and spend their leisure hours.

Computer literacy is fast becoming as fundamental a skill as reading or writing.

When we invented the first personal computer system, we estimated that over 140,000,000 people worldwide could justify the purchase of one, if only they understood its benefits.

Next year alone, we project that well over 1,000,000 will come to that understanding. Over the next decade, the growth of the personal computer will continue in logarithmic leaps.

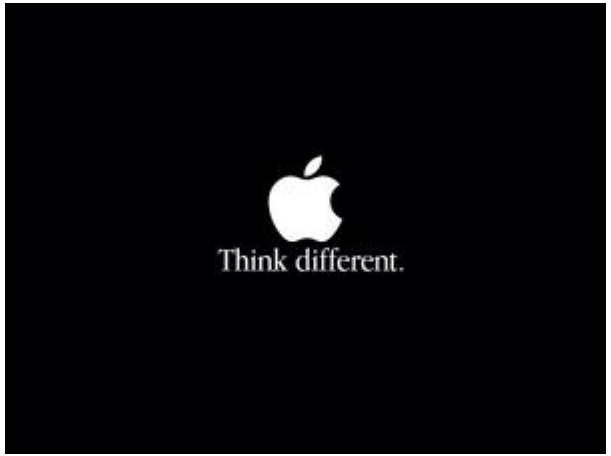

We look forward to responsible competition in the massive effort to distribute this American technology to the world. And we appreciate the magnitude of your commitment.

Because what we are doing is increasing social capital by enhancing individual productivity.

Welcome to the task.
